## New Home Page Design

With the start of the new Sinar Photography we proudly present our new web site. Come and visit us on [www.sinar.ch](http://www.sinar.ch) and discover the world of professional photography.

Our new web pages have a clear structure and a modern and trendy appearance. The access to the desired information is easy and you will have fun to surf through the Sinar Photography web pages. Software for our digital backs as well as manuals and brochures are available for easy download without login procedure.

Beside product informations you always receive recommendations for complete Sinar solutions for any kind of photographic application.

Customers from Switzerland, who have been served by Tekno in the past, can go directly to the shop area. One click in the upper right corner on our home page and you will immediately experience all products and services offered for the Swiss market.

For any further information please contact the Sinar distributor in your region or send an email to [contact@sinar.ch](mailto:contact@sinar.ch). Your comments and wishes are welcome at any time.

## Start-Up Promotion

Beside our new internet presence we want to offer the wide range of Sinar solutions to our web site visitors. Today we are pleased to present a special offer on the most professional view camera system.

The world's best view camera **Sinar p3** together with our multishot **Sinarback eVolution 75H** is now available for only **CHF 24.800,- (€ 16.000,-)** excl. VAT.\* This offer is valid until December 31st. 2009. Due to different customs and tax regulations prices may vary from country to country.

In numerous studios all over the world the legendary Sinar p view camera is used in daily production and ensure high profitability. In combination with the multishot Sinarback eVolution 75H including the essential live image for composing, this system solution meets all challenges in professional photography.

The unique live image will enable you to personalize each picture by applying selective sharpness and unsharpness. A wide range of high resolution lenses - able to reproduce the resolutions of all digital backs - completes the unequaled system solution.

Due to the huge success of this promotion since beginning of October a certain extended delivery time might occur. We already thank you in advance for your understanding.

Contact your local Sinar [Distributors](#) to receive more details on this promotion.

\* Sinar p3 and Sinarback eVolution 75H. Lense and adapter are not included by this offer.
